

## World Environment Day & Investiture Ceremony

World Environment Day is celebrated on 5<sup>th</sup> June globally. It is a day we spread awareness about the environment and the need to conserve it.

Students of std IV A along with Tr. Priyanka conducted a meaningful assembly on 27<sup>th</sup> June 2024. It began with a prayer dance followed by prayer service. Students prayed for 'Our Mother Earth' which provides us with basic needs. They even put up a beautiful skit depicting nature's different gifts to us. This was followed by group song "Chalo Milke" which gives us the message to grow trees and to save them.

The second part of the programme was the Investiture ceremony. It is one of the important events when school entrusts the responsibilities to the newly appointed cabinet. The head girl gave a vote of thanks on behalf of all the appointed cabinet and promised to perform their part well and the same is expected from students responding back to them in obedience. The management addressed the students giving a short message to protect the environment. Overall it was a wonderful programme.
