

## World Post Office Day

On October 9th, Apostolic Carmel School, Bandra celebrated World Post Office Day with an enriching event to educate students about the importance of postal services. The highlight of the day was the presence of three postmen, who were invited to give students a deeper understanding of how the post office functions. They shared insights into the various services provided by the postal system, such as mail delivery, parcel handling, and money transfers, and also discussed how digitalization has impacted their work. This helped students appreciate the hard work and dedication of postal workers.

In addition to the informative session, students from Classes 5 to 7 participated in various engaging activities. The fifth-grade students were tasked with creating colourful charts that illustrated the functions of a post office. The sixth graders focused on the artistic side by decorating envelopes, showcasing their creativity. Meanwhile, the seventh graders took a more reflective approach by writing essays on the challenges faced by postal services today, such as the rise of digital communication, competition from courier services, and logistical difficulties. These activities not only fostered creativity but also helped students develop a deeper appreciation for the evolving role of postal services in the modern world.
